

When it comes to insurance, isn't it time you put yourself first?

Just think about all the things you insure as a matter of course.

For example, more people have pet insurance than health insurance.¹

When you look at the cost of these everyday insurance plans you soon realise that the cost of personal protection is not to be sniffed at:

It costs **£4.33 a month** to insure a mobile with Talk Cover.²

Boiler insurance costs from **£10.50 a month.**³

Multi-trip holiday insurance costs **£20.94 a month.**⁴

A £40,000 Life or Critical Illness Cover plan costs **£10.00 a month.**⁵
